Legend: Summary of collapsed QTL confidence intervals.
Column A (rows 4-127) lists individual compound response traits, including time point.
Column B lists the genomic marker with peak lod score.
Column C lists the chromosome (1-16) on which the linking marker resides.
Column D lists chromosomal basepair location.
Column E lists logarithm of odds score.
Column F lists basepair start of confidence interval
Column G lists basepair end of confidence interval
Column H lists total length of confidence interval in basepairs
